Certificate of Corrections Branch  
Assistant Commissioner of Patents & Trademarks  
Washington, DC 20231

Sir:

Transmitted herewith is a Certificate of Correction for the above-referenced patent. Pursuant to 37 C.F.R. 1.323 and M.P.E.P. §1481, Applicant requests correction of a mistake of a typographical nature which was not the fault of the Office. The correction would not constitute new matter or require reexamination.

As indicated on the attached Certificate of Correction, the formula which appears in the specification at column 7, lines 34-45, contains typographical errors. As written, the N (nitrogen) in the formula may have more than 3 bonds and the C (carbon) may have more than 4 bonds, for example, when the structures are in the  $R_8$  position or  $Y_{10}$  is  $=O$ . As depicted in Figures 1-5, Applicant did not intend for the structure to show N with 4 bonds or C with 5 bonds. It would be immediately apparent to one skilled in the art that there are typographical errors in the formula.

As indicated in the attached Certificate of Correction, the oxygen (O) of the carboxyl group that appears in the specification in column 8, lines 6-15, is illustrated as having a single bond and should contain a double bond. One skilled in the art would

recognize that oxygen would exhibit two bonds and would immediately recognize that the carboxyl structure contains a typographical error.
